STYLISH FANS FOR MODERN HOMES

User Manual

Welcome to **Kühl**

Dear Customer,

Thank you for choosing **Kühl Stylish Fans**! It is indeed a wise decision as **Kühl Stylish Fans** are based on the new BLDC technology that offers energy efficiency, high air-flow & low noise operation even at a high speed. This feature not only helps to keep your home comfortable but also keeps the electricity bill in check. We believe that customer satisfaction is at the core of our values as each **Kühl Stylish Fan** is delivered to you after going through an extensive and complete series of testing procedures that examine every area of its operation, effectiveness, and efficiency under various working situations.

Kühl Stylish Fans are here with everything you need from a fan and much more to give you all-round performance. With 1/3 the energy consumption, it is a pioneer in energy efficiency and brings you world-class comfort. It's time to say goodbye to high electricity bills and be part of the smart future.

Thank you!

Introduction

Enhance the style quotient of your home with the much awaited wow-factor and make it more amazing than ever with the Kühl Luxus Series Fans. To make your homes aesthetically more appealing, it comes with Night & Down light, which not only adds a stylish touch to your interiors but also makes a powerful statement in any indoor space. Despite these fancy features, Kühl Luxus works on 30/38-Watt power, saving up to as much as 65% electricity. The series includes Kühl Luxus C3, C4 & C5 that are not just functionally powerful but also beautiful, making them a must to enhance the aesthetic appeal of your home.

Features of Kühl Luxus Stylish Fans

- 1. BLDC Technology for Energy Saving:** Kühl Stylish Fans offer better speed versus torque characteristics. It ensures high dynamic response and efficiency. Thanks to its lack of electrical and friction losses, it offers long operating life and ensures one more step towards building a sustainable future.
- 2. Highest Air Delivery:** Energy efficient operation with around 30/38 W Power, 1400/1200 MM Sweep, & high RPM Speed to fill every corner of your place with fresh air as per your need. Its higher air force ensures unmatched comfort to every corner of the place.
- 3. Low Noise:** A low noise operation without compromising speed limit is one of most desired features of Kühl Stylish Fans. They operate at low speeds while providing high air flow with low turbulence and minimal wind noise.
- 4. Down & Night Light:** Designed to add light and enhance the ambience of your space, Kühl Stylish Fans exudes sheer elegance with its Down & Night light that can be operated together or individually.
- 5. One Fan, Many Operations:** Kühl Stylish Fans are IoT-enabled, making it highly efficient and easy to use. Conveniently set to adjust the fan speed, lighting preferences, different modes, set timer, and a lot more via:
 - Remote
 - Smartphones
 - Alexa/Voice Enabled
 - Wi-Fi/IoT Operated

6. **Aerodynamic Blades:** Aerodynamic design helps deliver higher airflow and low noise at a low wattage.
7. **Reverse Mode:** During winters, when hot air gets stuck at the top of the ceiling, you can switch on the reverse mode for air circulation, so you can feel warm air consistently spread across the place.
8. **Attractive Design:** Stylish enough to enhance the look of your place, Kühl Stylish Fans feature decorative trims and a sleek surface that become the centre of attention in any space.
9. **5 Star Rated:** All Kühl Stylish Fans are 5-Star Rated they help bring down the power consumption, thus, saving a lot of energy and money.

Know your Control Device

• Remote

1. **SPEED SETTINGS:** Speed varies for five different levels, wherein S1 is the lowest fan speed and S5 is the highest. Press as per your requirement.
2. **SLEEP MODE:** Auto speed control for uninterrupted comfortable sleep. Select this setting before going to bed, and the speed will automatically drop to the minimum pace you specify.
3. **BUILT-IN TIMER:** You can use timer settings for 1 hour, 4 hours, & 8 hours accordingly.
4. **BOOST MODE:** Press this button to accelerate the fan past its maximum speed directly when it's too hot.
5. **REVERSE MODE:** When you put the fan into reverse, it draws air upward. This brings the warmer air near the ceiling back down into lower half of the room, where the people are.
6. **BRIGHTNESS:** Increase or decrease the brightness of downlight to create an ambient display in your place.

• IoT/Wi-fi

Please follow the given steps to connect KühL fan to Wi-Fi Network:

- Use a Paired Remote
 - Switch ON Fan
 - Press & hold "Boost" button
 - On remote for 10s
 - 2 Beeps indicate success
 - Use KühL mobile app for Wi-Fi Pairing
- ## • Voice command/Alexa

To set up Alexa:

Simply link your Alexa account to the KühL mobile application to setup Alexa with your KühL fan.

Power Saving & Energy Efficient Guide

Kühl Stylish Fans come with revolutionary and super energy-efficient BLDC motor technology that consumes less energy. Our fans consume only 1/3rd of the power consumed by induction fans. Kühl Stylish Fans run on just 30/38 Watt at full speed whereas induction fans run on approx. 75 Watt.

Cost Saving Guide

	Induction Fans	Kühl Luxus Fans (C3, C4 & C5) (1400 mm)	Kühl Luxus Fans (C3, C4 & C5) (1200 mm)
Power consumption	75 W	38 W	30 W
Assumed usage of fan per day (hours)	16 h	16 h	16 h
Power consumption – KWh Units per day	1.2 kWh	0.64 kWh	0.48 kWh
Electricity bill per day @ Rs 7/unit	Rs 8.4	Rs 4.48	Rs 3.36
Electricity bill per annum	Rs 3066	Rs 1635	Rs 1226
Savings per annum	-	Rs 1431	Rs 1840
Cost saving (Up to)	-	47%	60%

Mounting Recommendations & Maintenance

1. A minimum height of 2.3 meters above the ground is required for the fan's mounting. Allow enough room from the ceiling for the high-level cabinet doors to open. At least 0.25 meters should separate the blade from the ceiling.
2. The horizontal distance from the nearest wall to the blade tip should be around 0.5 times the fan sweep, for example, from 1400 mm, it should be 700 mm.
3. There should be a minimum clearance of 2 times the fan sweep between the centers of two fans, for example, 1400 mm should be 2800 mm.
4. Turn the fan off before cleaning, to prevent any harm or damage. Be extremely cautious while working around the fan. There is no additional type of maintenance needed except routine dusting. To prevent scratches, use a soft brush or a lint-free cloth. Avoid using solvent, abrasive, or hard detergent.
5. To prevent the fan from wobbling or dropping, never exert too much power while cleaning the blades. To prevent any inconvenience, frequently check that the nuts, bolts, screws, and washers are in the correct position.

Safety Guidelines

Read the safety guidelines carefully to understand the installation, use, and maintenance.

1. Never place any part of the packaging within the reach of children/differently abled.
2. Avoid using moist or damp hands while switching On/Off the appliance.
3. Before cleaning and doing other maintenance procedures, be sure to turn off the fan's power supply.
4. To prevent mishaps, it is advised to inspect the suspension system of the ceiling fan every six months to ensure that the fasteners are properly tight.

Assembly Instructions Kühl Luxus Series Fan

Step 1. Place Fan Unit for assembly

Place Fan Unit Assembly (1) in Reverse on Packing Thermocol, as shown

Step 2. Remove Blade Screws

Remove 15 outer screws (A) from Blade Housing (B)

Step 3A. Assemble Blade

Bring 1st Blade (7) inwards through the slot in Blade Housing (A) and align with 3 nos screw holes.

Step 3B. Assemble Blade

Tighten Blade with 3 screws removed earlier Bring in 2nd Blade through next slot

Step 4. Assemble All Blades

Assemble 2nd Blade also

Similarly assemble all blades

Step 5. Open LED Light

Light Unit ⑥

- Flip Light Unit Upside Down
- Hold Bottom half, and turn Upper half (Diffuser) Anti-clockwise

The Light Unit will open in Two parts, Housing and Diffuser

Step 6. Place Light unit on Fixing Plate of Fan Unit Assembly

Remove 3 nos Screws of fixing plate **(A)**

Bring Light Housing **(6)** to Fan Unit.
Take out the Wire **(B)** through Light Housing centre hole

Step 7. Align the Light Unit holes with screw holes on Fixing Plate

Rotate and Adjust the Light unit to ensure that all three Screw Holes are aligned for screw insertion and tightening.

Step 8. Fix Light Housing on Fixing Plate with screws

Fix LED Housing on Fixing plate with the 3 screws opened before

Step 9. Connect Wire-Connectors from Fan Unit into LED-disk Connectors

Insert the 3-Pin and 2-pin Wire connectors **(A)** from Fan Unit shaft into respective connector sockets **(B)** on LED Plate

Step 10. Assemble the Diffuser

Re-install Diffuser **(A)** by bringing it over Light Housing **(B)**

Rotate Diffuser on Light Housing Clockwise till Diffuser locks with a Click

Step 11. Place the Fan in Upright position

Flip the fan and place it in Upright Position over Thermocol packing

Step 12. Assemble Down Rod and Canopies

Insert Bottom Canopy (2) from Top end of Down rod (3) (no-slit end)

Insert Top Canopy also from same end

Insert Supply Wire provided through the lower one of the Top side holes in Down rod

Step 13. Insert Supply Wire

Take the Supply wire (10) out from the slit-end of Down rod (3)

Step 14A. Prepare for Down Rod Assembly

Unfasten Safety screw (A) on shaft

Step 14B. Place the Down Rod over Fan Shaft

Insert the Down rod **(3)** on Fan Shaft

The Down Rod Bolt

Take the Down Rod Bolt **(5)** from Shackle kit **(4)**

Step 15A. Insert the Down Rod Bolt

Insert The Down Rod Bolt **(5)** with Collared Clamp through Down Rod and Shaft Holes

Tighten the Down Rod Bolt and insert Cotter Pin

Step 15B. Down Rod Assembly

Reinsert the Safety screw

Safety screw tightened

Step 16. Make Electrical Wire Connection

Wire Connection Method

Connect the Supply wire **(A)** from Down Rod into Link Wire connector **(B)**

Step 17. Bring Lower Canopy Down

Loosen The Canopy Screw

Bring the Canopy down

Tighten the Canopy Screw

Step 18. Open Lower Bolt from Shackle

Open the Lower Bolt **(A)** from Shackle **(4)**, and remember the assembly sequence – Washer, Nut, Lock Nut and Cotter Pin

Step 19. Install Shackle and Hang the Fan

Insert Shackle **(4)** into Ceiling Hook

Raise Fan to Shackle

Re-insert Lower Bolt **(A)** and fasten

Tighten with Washer, Nut, Lock Nut and Cotter Pin in sequence as written

Step 20. Connect to Electric supply

Connect the wires **(A)** from Main Supply into Fan connector **(B)**

Raise the Canopy and tighten the Canopy screw

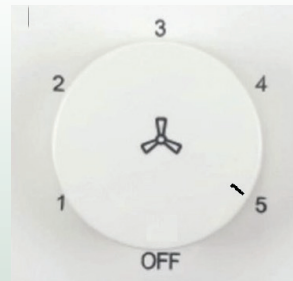

Assembly and Installation Complete

How to operate Kuhl Luxus BLDC Fan

Important Instructions regarding Regulator:

- Fan regulator is not required for this BLDC fan because it is operated by remote
- You should ask your electrician to bypass the Regulator in Switch Board wiring. Otherwise fan may not operate properly.
- If Fan wiring is already through a Regulator in switch board, then make sure that Regulator is always set at max speed, and any change in speed should be done by Remote.

How to Operate Remote Control Device

Get the Remote ready.

- Insert 2 Nos. AAA Batteries provided into the Remote Unit's slot provided at back.
- Switch ON the fan from switch board to operate it with Remote as explained hereafter.

Pair the Remote with Fan, if not paired already

- Press Power button on Remote to start BLDC Fan
- In case the fan starts running, your Remote is already paired
- However if the fan does not run, the remote requires pairing with Fan. Do the following:
- Switch OFF the fan from switch on the wall, and Switch in ON again
- Within 45 sec of switch ON, press the POWER button on Remote and keep it pressed for 10 sec. You'll hear a double beep. The fan is now paired and can be operated with remote.

Power ON/OFF Button

- Press Power button on Remote to start BLDC Fan
- Beep sound will indicate that it is switched ON.
- Press power button again to switch off / on the BLDC Fan.
- BLDC fan always re-starts at last Switch OFF speed.
- In case there is a power failure, the fan will automatically restart at previous speed
- If you want to switch off the fan during power failure, you have to switch it off from the Main board switch in the wall, as remote is not operational without Power.
- It is recommended to Switch off the fan from wall mounted switch when going out of home.

Speed Buttons

- Kuhl BLDC Fans comes with five different speed settings. You can control the speed, with the help of the (-) & (+) buttons. For instance, to decrease the speed press (-) and vice – versa.

Boost Button

- If you want to run the BLDC fan at maximum speed Press BOOST button on Remote. A beep will confirm the action.

Down Light Button

- To turn on the down light, press the DOWN LIGHT button from the fan remote, as soon as you press it, the down light of the fan will turn on.
- Pressing DOWN LIGHT button again will change the colour of Light. Pressing yet again will again change the colour of light to third Light mode. Pressing once again will switch Off the Light.

Night Light Button

- If you want the room to have a little light while sleeping, this fan comes with night light mode setting, To turn it on / off, press the Night Light button from the fan remote. As soon as you press it, the side light of the fan will turn on, so that you can sleep peacefully at night.
